And the Stockton paper's view of the matter is right: He is best educated to whom the Almight and man have given a capacity for thought. The books of science change, and the conclusions of wise men are altered. Apply to every statement the question, why is this se? and if the why is not evident, look further." But if the child is not per muedad. 152t it the came is not per mitted to go to school one of the great means of education, touch with his kin's, is for years largely removed from him. That is all right as lar as some of the feathery tribs are cancerned, but it will be hard to make the fruit grower believe that these birds which prefer a strictly fruit diet are a bleesing in disguise. There are kinds of insects as well as birds which are good friends of the farmer, and the thing needed to be taught to children, as well as many data well is the howeled about will older people, is the knowledge that will enable them to discriminate between the birds and hugs which are useful and those which are destructive.

The producers of early fruits also found the market better than last year, and the dried fruit market will be all right if inelligent methods are used in handling the enormous product. The wheat farmer is just "sloshing around" in prosperity, and altogether the cituation and outlook of the agriculturist is much hotter than it has been for several wears. That the tide has turned in the right di-rection cannot be doubted by anybody except he be a confirmed pessimist.

A very peculiar case was brought to the attention of the authorities yester-day by the filing of a complaint charging Mrs. Freeman Taber with being an inand person. The charge was made by the hasband of the woman. Deputy Sheriff Frank Scott arrested her yester.

Mrs. Taber accompanied the officer

She talked in a very intelligent manuer, and the officer could discern no signs of an unbalanced mind in either her actions or her conversation. Others who uses and spoke to her also came to the conclusion that she was perfectly sene, and wondered what could have induced her hurband to bring so serious a charge against the woman.

A REPUBLICAN reporter was informed that Judge Farley was Mr. Taber's attorney and called on the Judge in order to ascertain why Taber charged his wife with insanity. There were disagreeable rumors that Taber wanted to "radiroad" his wife to an insane asylum, and Judge Farley was asked why the husband had sworn to the complaint when Mrs. Taber was so plainly of sound mind. Judge Farley was not disposed to say very much about the case, but he did not wish his chient to suffer from any nituanderstanding or the metriphion to him of sinister motives, so be made a brief statement.

"Mr. Taber charged his wife with being insann," said the altorney, "because he believed her to be so. Her actions were such as to point to an usbalanced mind, and for the protection of his children he doemed it accessary to turn lar over to the authorities. Had Mr. Taber believed her the protection of his children he doemed it accessary to turn lar over to the authorities. Judge Farley asked to be exemed from string the details of Mrs. Taber's alleged miscondect, but a trioud of Mr. Taber's alleged miscondect, but a trioud of Mr. Taber's there wone light upon the matter. This gentleman stated that Mrs. Taber had been unfaithful to her hushand. Her irregularities began about a year ago, it is alleged, and though the hushand tried to make her conduct herproperly, he could not centred her. It is also told of her that she had tried to induce her eldest daughter, who is 14 years of age, to go her way, and upon one necesion looked her up in a room with a man in a Front street louding house. The girl resisted, and her screams brought other holgers upon the scene, who delivered her from the hands of the rutilan. The girl hurself, it is stated, alleges that her mother has tried to lure her from virtue's path.

The Bishop's remarks kept the big andience in a continual uprora. His galvies to the race was to get money, and then that would gain the respect of white people. He also urged the necessity of good character, and clored his elequent address with an appeal of them to stand by their organization. ing of the Several Teams.

The games to be played at San Fran-ciano next Saturday and Sunday be-tween the Finisso Riccaicass and the Santa Orns pine are arousing great inare so used to seeing the home team win that they are inclined to predict that it will be "the same old story," but

the fact that the Sants Cruz is also an undefeated team, and the further fact that it is generally considered one of the best in the tournament, turns confidence into doubt at times.

It is true that the Sants Cruz is also an undefeated that it is generally considered one of the best in the tournament, turns confidence into doubt at times.

It is true that the Sants Cruz boye have not met any first-class teams so far, but that does not prove that all that has been said of their ability as ball players is false. These who have seen them on the diamond say that they do good team work and are the bardest of hitters. If the latter is correct, a good deal depends on Beltz.

Judying from the interest being taken in the approaching games quite a number of Freenams will go to the metropolis to root for the Freenams and pravent their becoming louesome. Yesterday's Kraminer contained the following concerning the games;

"The biggest cames of the tournament have been scheduled at last. Contail park this work. The unbeaten Regularies of the Sants Clarks, the Contail park this work. The unbeaten Regularies of the Sants Clarks, the Will & Frincis, the Corkers, the Haesemans and others of the best teams in the state, will try their skill on the undefeated "Backton between of Sants Corus, the conquerors of the Violets, the Jacobs, the Monarchs, the Alerts and the Monterays.

"The clubs will play two games at Central park. The first, on Saturday at 3 o'clock, will be for ladies. On that occasion all ladies will be admitted to the grounds free of charge. The second will be played next Sunday, beginning at 2 p.m. It is doubtfull even the immense easting capacity of the Market Sireet grounds will be endicident to accommodate all those will be admitted to the grounds free of charge.
